

Mauro Busso

Full-Stack Software Engineer

mauro.busso12@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Software developer with 2 years of web experience and several years of working effectively in team-oriented environments. A strong background in Health care has taught me the importance of constantly learning and improving, and how to communicate effectively.

SKILLS / TOOLS

HTML, CSS, JavaScript, TypeScript, Tailwind, React, Node.js, Express, MongoDB, SQL, Git, GitHub, Linux, JSON, APIs, OOP.

EXPERIENCE

Open Source Contributor (Part-Time)

PolicyEngine | [Nov 2023](#) — [Present](#)

- Collaborated on resolving some stylistic issues, enhancing the overall user interface and ensuring polished user experience.
- Proactively addressed design issues, engaged in collaborative problem-solving sessions, utilized Git for version control.
- Gained hands-on experience in front-end development and a solid foundation in open-source collaboration.

Front-End Developer (Part-Time)

Walker's Supermarket | [Aug 2023](#) — [Oct 2023](#)

- Collaborated with a team of developers to build a software solution for a start-up project to help people buy affordable food online.
- Demonstrated proactive leadership by efficiently organizing workload, ensuring streamlined project progress, and fostering collaborative environment.
- Enforced codebase maintainability standards, emphasizing clean and efficient practices to enhance long-term sustainability.

Front-End Developer (Contract)

Fraser Footcare Website | [Live site](#) | [May 2023](#) — [July 2023](#)

- Led front-end development project, using React, JavaScript (ES6+), Tailwind.css to build user-friendly website
- Ensured optimal user experience across various devices through responsive design and performance optimization.
- Collaborated closely with the client, implementing feedback iteratively to achieve project milestones.

OTHER PROJECTS

Local Anaesthetic Calculator | [Source code](#) | [Live site](#)

- During the development of this application, I was able to learn and practice Tailwind.css and Flowbite. This greatly simplified and streamlined my experience styling the implementation of media queries.
- This app helps to calculate how much local anaesthetic, quickly and efficiently, can be injected in a patient. Saving times during appointments and improving overall clinic workflow.

Explore Space | [Source code](#) | [Live site](#)

- App made to utilise the popular NASA API to fetch and display data from satellites.
- Some of the skills I was able to learn includes API integration, error handling and data parsing.

Birthday Reminder App | [Source code](#) | [Live site](#)

- Created using Node.js, Express and MongoDB.
- Full stack application that let you store people names and their birthdays. Then display a message on the date of the birthday. Aiming to reduce missed birthday messages.

TRAINING & EDUCATION

CS50 Harvard introduction to computer science

CS50 SQL introduction to databases – October 2022

Scrimba Front-end course – July 2022 to Present

- Advanced training in front-end technologies, enhancing skills in Javascript, Typescript, React, CSS, and responsive design.

100Devs Full-stack Bootcamp – Dec 2021 to June 2023

-Comprehensive full-stack curriculum covering HTML, CSS, JavaScript, Node.js, Express, MongoDB.

Queen Margaret university (Bsc) - Graduated 2022

Universita Degli Studi di Torino (Bsc) - Graduated 2016

VOLOUNTEERRING

-Hitching web (Developer meet up) [Sept 2022 — Present](#)

Co-organizer of local developer meetup, fostering an engaging and collaborative environment for working on side projects together.

-Tech conference 2023 (NDC, QCon, JS conference) | London [Jan 2023 – March 2023](#)

Engaged in industry events, staying up to date with latest trends and technologies.
