

# Mauro Busso

Full-Stack Software Engineer

[Mauro.busso12@gmail.com](mailto:Mauro.busso12@gmail.com) | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Software developer with 1+ year of web experience and several years of experience working effectively in team-oriented environments in health care and hospitality. A strong background in Health care has taught me the importance of constantly learning and improving, and how to communicate effectively.

## SKILLS

HTML, CSS, JavaScript (ES6+), TypeScript, Tailwind, React, Node.js, Express, MongoDB, Git, Linux, NPM, JSON, APIs, Netlify.

## EXPERIENCE

Front-End Developer (Contract)

Fraser Footcare Website | [Live site](#) | [June 2023 — Present](#)

- Led front-end development project, using React, JavaScript (ES6+), Tailwind.css to build user-friendly website
- Ensured optimal user experience across various devices through responsive design and performance optimization.
- Collaborated closely with the client, implementing feedback iteratively to achieve project milestones.

Front-End Developer (Team Project)

Hitchin Hangouts | [July 2023 — Present](#)

- Built with React, TypeScript and Next.js
- Collaborated with a team to develop a software solution for a community project focused on promoting and enhancing the experience of dog-friendly cafes in the area.

Front-End Developer (Personal Project)

Personal Website | [Source code](#) | [Live site](#)

- Developed with React, intended as a place where to showcase my main projects and easily access them.
- Demonstrated proficiency in implementing modern design and navigation principles.

## OTHER PROJECTS

Local Anaesthetic Calculator | [Source code](#) | [Live site](#)

- During the development of this application, I was able to learn and practice Tailwind.css and Flowbite. This greatly simplified and streamlined my experience styling the implementation of media queries.
- This app helps to calculate how much local anaesthetic, quickly and efficiently, can be injected in a patient. Saving times during appointments and improving overall clinic workflow.

Explore Space | [Source code](#) | [Live site](#)

- App made to utilise the popular NASA API to fetch and display data from satellites.
- Some of the skills I was able to learn includes API integration, error handling and data parsing.

Birthday Reminder App | [Source code](#) | [Live site](#)

- Created using Node.js, Express and MongoDB.
- Full stack application that let you store people names and their birthdays. Then display a message on the date of the birthday. Aiming to reduce missed birthday messages.

## PROFESSIONAL EXPERIENCE

The Centre Podiatry Clinic – Staff Podiatrist [May 2022 — Present](#)

- Enhanced patient satisfaction through personalized care and treatment plan, resulting in 90% increased positive patient feedback.
- Implemented new revenue generating strategies resulting in 15% growth in revenue in the first year.

Holiday Inn Edinburgh - Shift Leader [Sep 2020 — March 2022](#)

- Led a team of 4-6 people during the evening serving time ensuring smooth operation and exception customer service, increasing customer satisfaction score by 10% within the first 6 months.
- Spearheaded the training and onboarding of new hires, providing them with comprehensive guidance on service standards and procedures. Implemented personalized service approaches and regular team training to exceed customer expectations.

## TRAINING & EDUCATION

Scrimba Front-end course – July 2022 to Present

- Advanced training in front-end technologies, enhancing skills in Js, Ts, React, CSS, and responsive design.

100Devs Full-stack Bootcamp – Dec 2021 to June 2023

- Comprehensive full-stack curriculum covering JavaScript, Node.js, Express, MongoDB, and more.

Queen Margaret university (Bsc) - Graduated 2022

Universita Degli Studi di Torino (Bsc) - Graduated 2016

## VOLOUNTEERRING

-Hitching web (Developer meet up) [Sept 2022 — Present](#)

Co-organizer of local developer meetup, fostering an engaging and collaborative environment for working on side projects together.

-Tech conference 2023 (NDC, QCon, JS conference) | London [Jan 2023 – March 2023](#)

Engaged in industry events, staying up to date with latest trends and technologies.
