

Mauro Busso

Software Engineer

SUMMARY

Passionate and motivated software developer with a background in healthcare with exceptional communication skills and several years of experience working effectively in team-oriented environments. Interested in building things that would bring concrete value to people. Proven track record of creating and implementing successful front and back-end web applications.

EXPERIENCE

Software Engineer at 100devs, Remote | [June 2022](#) — [Present](#)

Training programme.

- Collaborated with a team of developers to build modern and responsive web applications using HTML, CSS, and JS.
- Built semantically structured full stack web applications.
- Maintained detailed documentation for all project, using git and GitHub.

Recent Projects:

- **LA Calculator** | [Source code](#) | [Live site](#) –

This is a project I started to help me at work. It helps to calculate how much local anaesthetic quickly and efficiently can be safely injected in a patient.

- **Explore Space** | [Source code](#) | [Live site](#) –

This app was made by using the popular NASA API to fetch and display data from various NASA APIs.

- **Blackjack game** | [Source code](#) | [Live site](#) –

This app was inspired by the solo project on the Scrimba course with some modification and the use of a deck or card API to display the cards drawn by the player.

- **Birthday Reminder App** | (In development)

Currently working on this is a full stack application that let you store people names and their birthdays and then retrieve the information whenever you need.

Other Projects

-Travel journal - static single page made with React.js.

-Strengthen & Stretch It: During my last year of university, I have built a website to help patient with their rehabilitation. It was also aimed at reliving some of the pressure experienced by the NHS podiatry departments.

Podiatrist at The Centre Podiatry Clinic | Harlow [May 2022](#) — [Present](#)

Working in an established private clinic, delivering high quality care for patients in need.

-Increased patient satisfaction and clinic revenue.

VOLUNTEERING

Hitching web [September 2022](#) — [Present](#)

Involved in the local developer meetup where we share projects and knowledge regarding new and exciting tech and work on sides project together.

NDC Conference 2023 | London [January 23th](#) – [27th](#)

QCon Conference 2023 | London [March 27th](#) – [29th](#)
